Loop 303 Outfall Drainage System (Woodlands Avenue to the Gila River) **CONSTRUCTION NOTICE**

24-Hour Construction Hotline: (602) 264-6416

Road Closure Advisory

Lilac Street:

173rd Avenue to Cotton Lane

6/5/14 through 7/3/14

Beginning at 6 a.m., Thursday, June 5, 2014, the Flood Control District of Maricopa County (District) contractor will close Lilac Street between 173rd Avenue and Cotton Lane to facilitate concrete drainage box culvert and roadway construction. Please note there is not enough room to safely maintain pedestrian access in the closure area. During this time, Cotton Lane and 173rd Avenue will remain open. Yuma Road, Van Buren Street, Citrus Road or Cotton Lane may be used as an alternate route. Lilac Street will reopen by 6 p.m., Thursday, July 3, 2014.

Thank you for your patience and cooperation during this improvement effort.

About the Project

The District awarded a contract to FNF Construction, Inc. to construct the Loop 303 Outfall Drainage System. The new outfall drainage system will collect and carry stormwater runoff to the Gila River and reduce the chance of property damage and flooding to the future freeway and adjacent areas during a major storm event. Drainage improvements include construction of a concrete-lined channel, box culverts, storm drain pipe, retaining walls and landscaping. Additional improvements include street and irrigation system reconstruction for the Roosevelt Irrigation District (RID) and Buckeye Water Conservation and Drainage District (BWCCD). The project is slated for completion in fall 2015.

For More Information

If you have questions or would like more information about the improvement effort, please call the 24-hour construction hotline at (602) 264-6416. We are happy to answer your questions and assist you in any way we can.
