GILA RIVER FLOOD INSURANCE STUDY
RECONNAISSANCE FIELD TRIP
JUNE 20, 1989

FCDMC CONTRACT NO. 88-52
CBA FILE NO. 41389-01-30

Participants:

Pedro Calza, FCDMC
Russell Cruff, FCDMC
Jim Nelson, CBA
John Conway, CBA

Date:

June 20, 1989

Information Acquired:

- Manning's "n" values for channel and overbank areas (attached).
- Color photographs of channel and overbanks (attached).

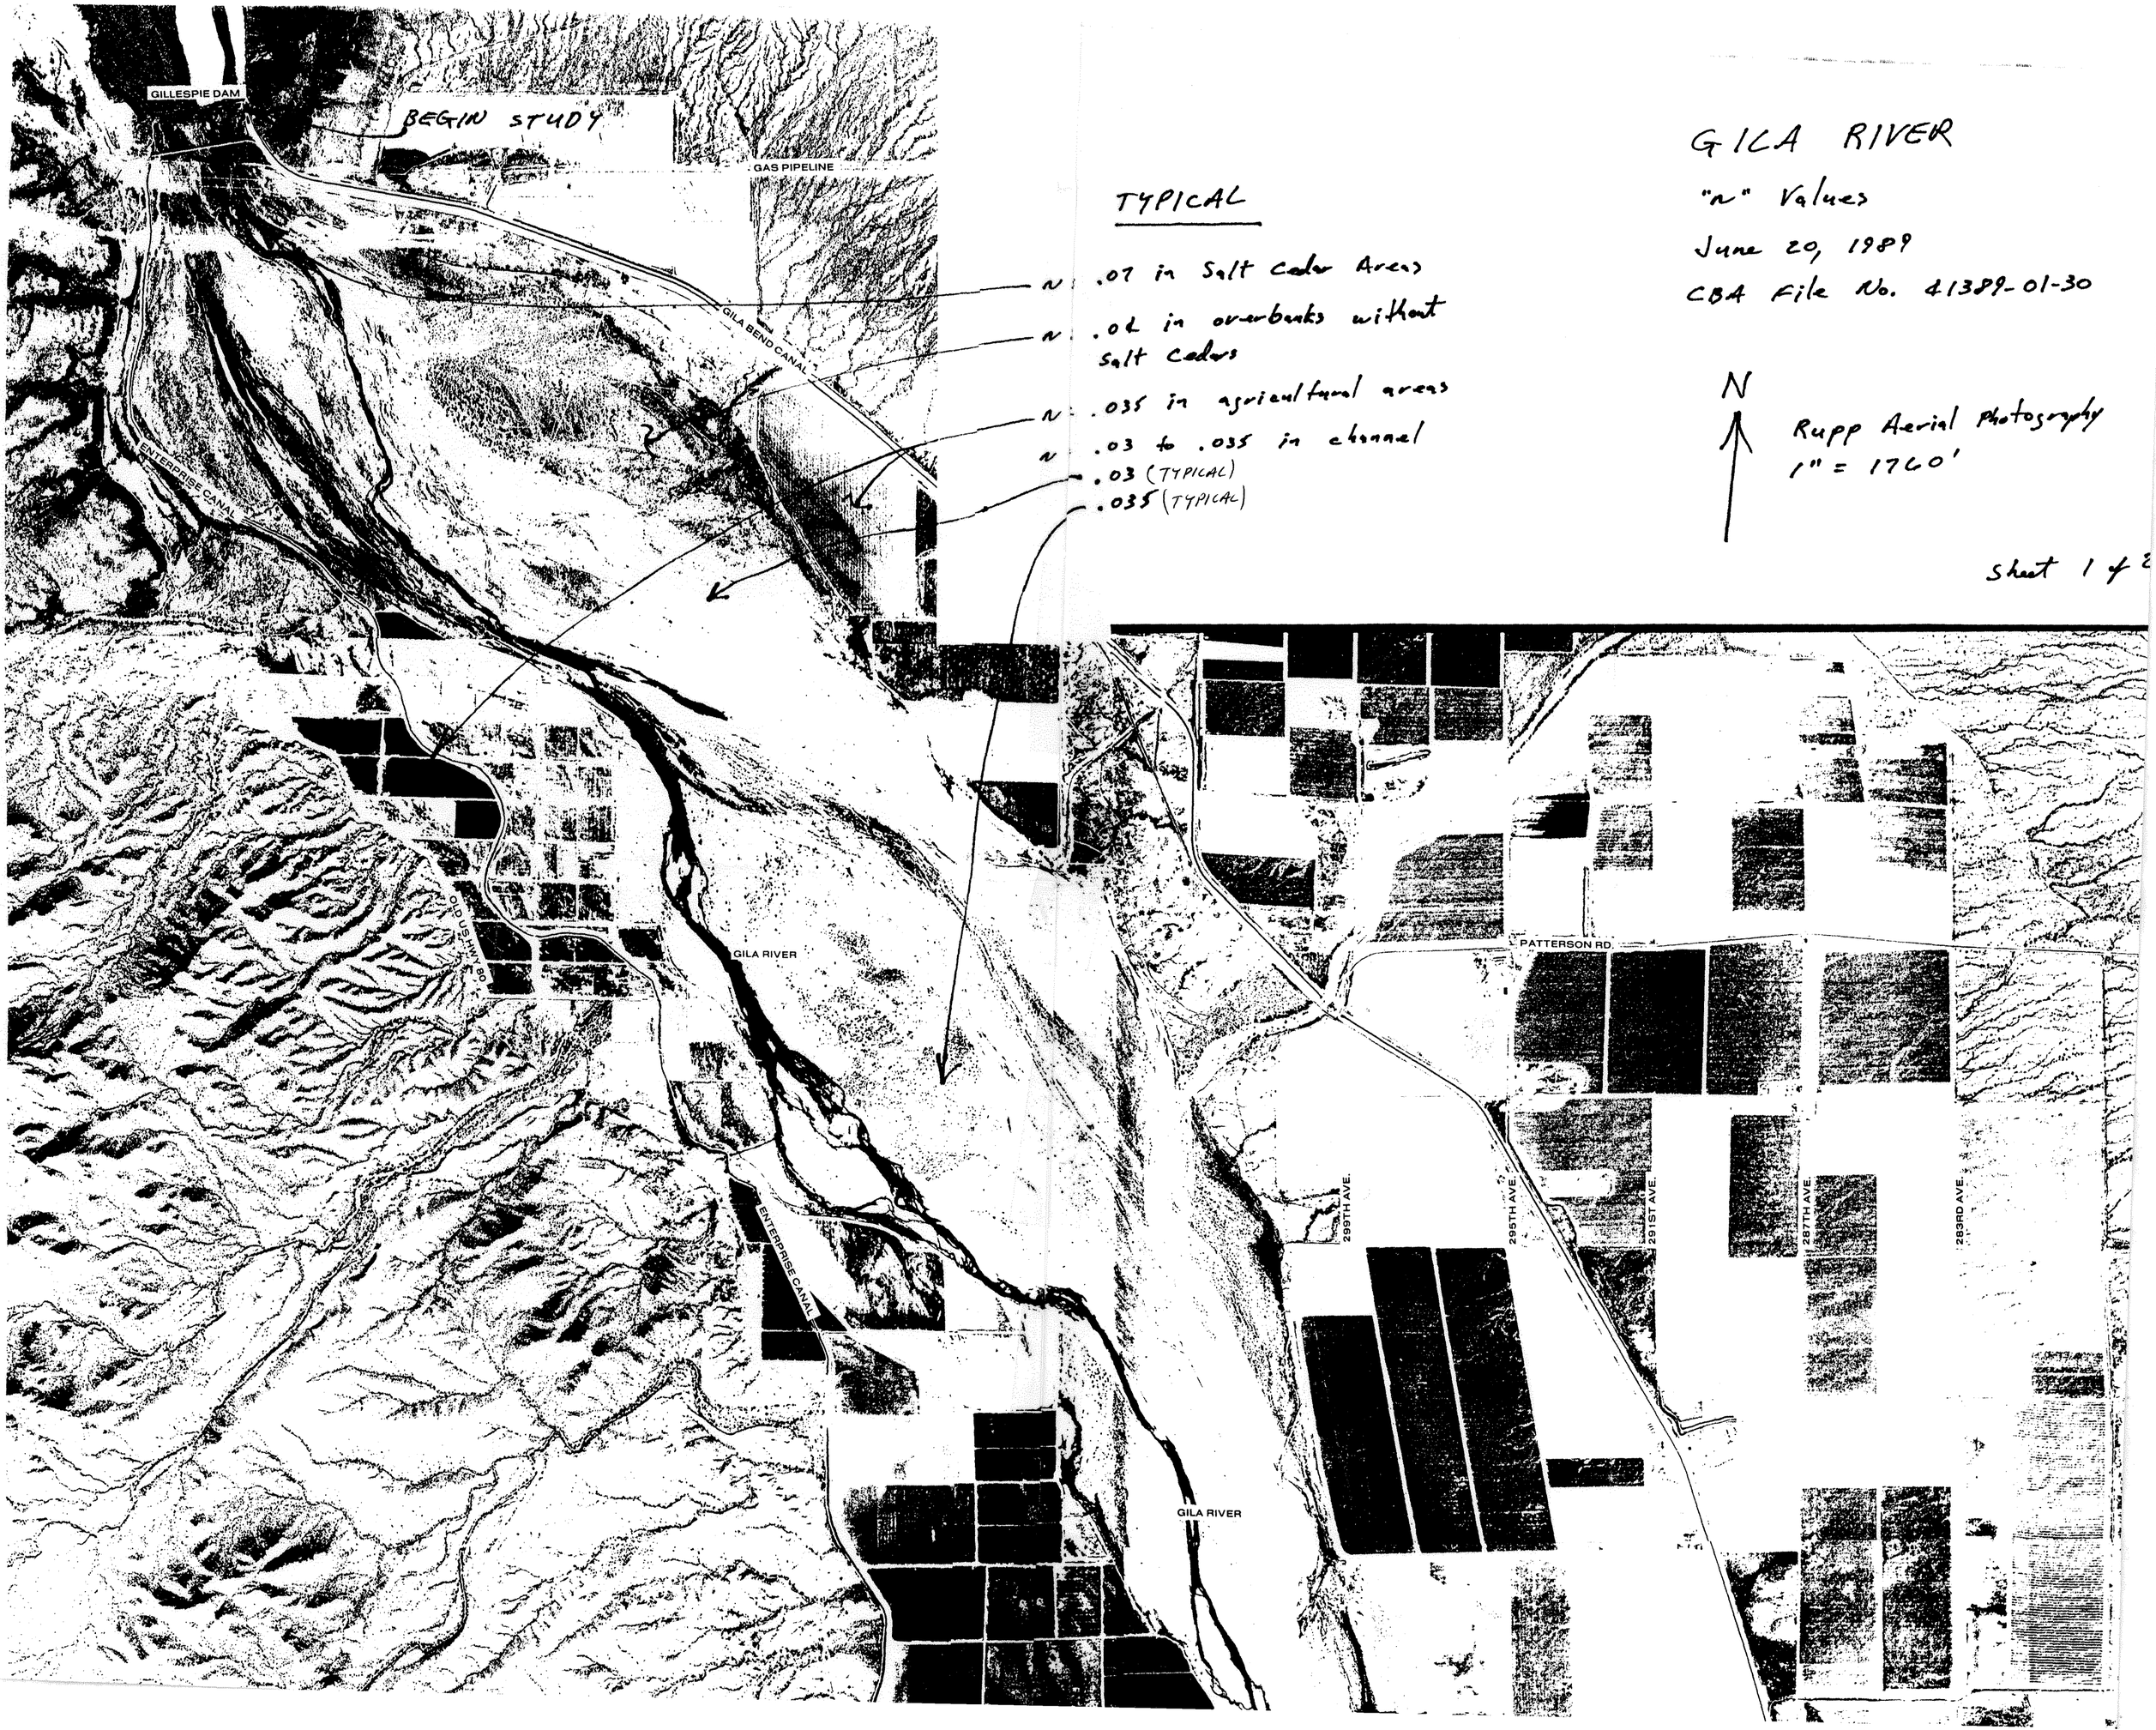
Note: No special structural or localized problems were encountered. However, some agricultural levees may require further field investigation if preliminary HEC-2 runs indicate that the levees effect the floodplain boundary.

GILA RIVER

"n" Values

June 20, 1989

CBA File No. 41389-01-30



TYPICAL

- n : .07 in Salt Cedar Areas
